AI, Attention, and Why Augmentation Creates Real Value

THE FORMAT

Long-form video conversations, 20 to 35 minutes, built around one big idea and the decisions behind it.

EVERYWHERE

Spotify, Apple Podcasts, YouTube, Amazon Music, iHeartRadio, Audible, Pocket Casts, Deezer, TuneIn and Pandora.

EVERY EPISODE

Its own page at thecxalgorithm.com with the full transcript, chapters, key takeaways and resources.

BE A GUEST · PARTNER WITH THE SHOW

Leaders with a real story about CX, data or AI, and partners who want to reach CX, insights, digital and product leaders.

hello@thecxalgorithm.com

ON STAGE · HX FORUM, SYDNEY

THE HOST

Dr Eslam Afifi

Podcast host · Keynote speaker · Board member

A CX and data leader with over 15 years of experience helping organisations across Australia, Europe and the GCC. His work sits where customer experience, Voice of Customer and AI-enabled insights meet, and his belief is simple: great experiences don't come from one element alone. They're created through the right algorithm of people, data and technology.

He created The CX Algorithm to bring together the innovators, leaders and storytellers who each add something unique to that formula, and to challenge how AI and CX really create value.

CREDENTIALS

PhD, Monash University
CX and marketing strategy using AI and machine learning

Executive MBA, IE Business School
Blue Torch Award

3× winner, Australian CX Awards
Customer Data & Insights · CX Transformation (2022, 2023)

15+
Years across Australia, Europe and the GCC

SPEAKING

"The best CX leaders don't chase technology. They fall in love with customer problems — *and let the right solution emerge.*"

Dr Eslam Afifi, keynote at HX Forum Sydney

SIX LENSES ON CUSTOMER EXPERIENCE

01

Human behaviour

The psychology behind why customers choose, stay, or walk away.

02

Loyalty & trust

Building loyalty that survives a bad day.

03

Experience design

Turning journeys and touchpoints into memorable moments.

04

Data & growth

Measurement that predicts behaviour instead of describing it.

05

AI & automation

Where intelligent systems help, and where they quietly hurt.

06

Connected teams

Aligning service, product and marketing around the customer.

Formats

Keynotes, panels, fireside chats and workshops. Advisory and podcast guesting. In the room or live on screen.
